Conclusion

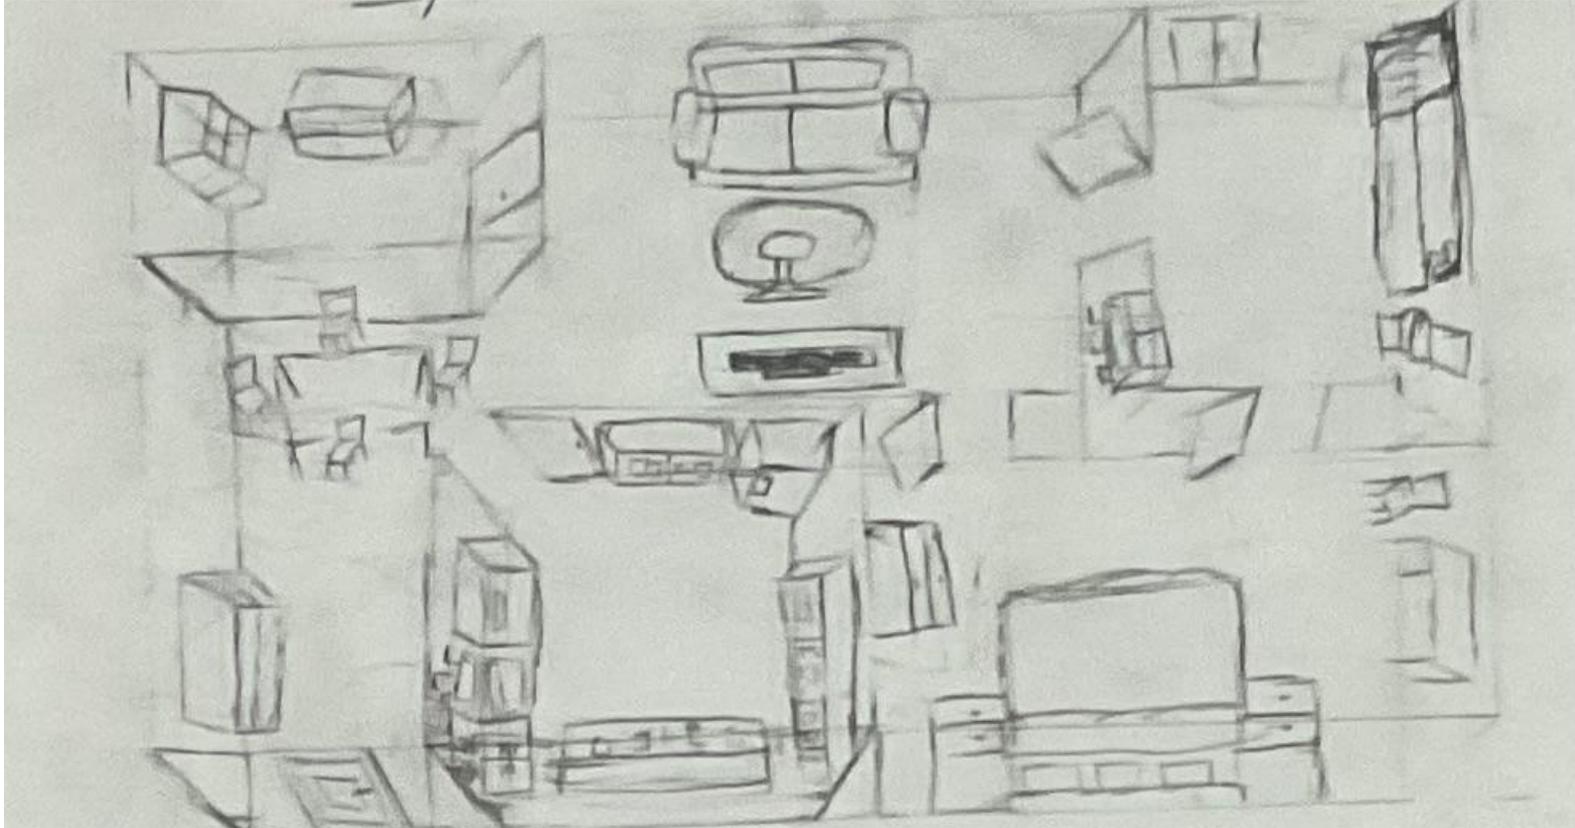

Introduction

If you were given \$30,000 to get furniture(not food) plus pets, what furniture would you buy? Where would you put your furniture? Will you have enough money to get all the things you need to live? Would you need an ipad, phone, laptop, printer, paper, pencil, art supplies, etc?

There are so many things you need to worry about when you move into an apartment with \$30,000 to get furniture and more(not food). So in this slideshow, we are going to show you how we would arrange the furniture and what we bought/buy. Let's get started.

Conclusion

In the beginning we were given 30,000 to furnish our apartment with necessities and furniture from any website in Canada. Now we are done buying all the stuff we need to survive for under 30,000,, but not (food and clothes).

In this slideshow we showed you all the stuff we decided to buy for our apartment to live. As you can see everything we bought we put each item in a category for each room.

Total: 29,549.96

THE END
